Experience

Freelance Full Stack Developer

Upwork • Australia
06/2024 - 10/2024

- Developed an e-commerce subscription platform using **Next.js** (frontend) and **NestJS** (backend), with **MySQL** database.
- Integrated **Stripe** for secure subscription payments.
- Implemented dynamic role-based authorization and secure JWT authentication for backend security.
- Ensured responsive frontend design and optimized API requests for improved performance.
- Managed the project end-to-end, from concept to deployment, including testing and debugging.

Software Engineer (Full Stack)

Retain Health • Boston, Massachusetts
07/2022 - 08/2024

- Design and develop new software features using AngularJS, ExpressJS, Bootstrap, and MySQL
- Identify, report, and fix the issues found
- Design, develop, and execute automated tests using Javascript test frameworks

Front End Development Intern

ARSII • Sousse, Sousse
08/2023 - 10/2023

- Developed Angular-based admin dashboard for dynamic user interfaces.
- Integrated teammate's API seamlessly for enhanced dashboard functionality.
- Collaborated closely with cross-functional teams to ensure effective communication and smooth integration between front-end and back-end systems.
- Crafted responsive user interfaces for enhanced user experience and optimal performance on diverse devices.
